## **PART I: ADMINISTRATION REPORT**

### **1.1 Introduction**

The Botswana General Certificate of Secondary Education (BGCSE) examination is a syllabus-based assessment where candidates are awarded certificates in respect of each syllabus sat for. The examination was administered to 37,629 candidates from 06 October to 24 November 2021 compared to 36,557 in 2020. The 2021 cohort was comprised of candidates from public schools, private schools and individual candidates who registered directly with BEC. The 2021 examinations, like those of 2020, were conducted under the COVID-19 environment. The schools had to close from 16 July to 31 August 2021 due to the rapid spread of COVID-19. This then led to timetable changes to address the loss of teaching time. Despite the challenges with COVID-19, the conduct of examinations went relatively well, with the exception of a few incidents recorded. The administration report is intended to provide information regarding the environment under which the examinations were conducted.

### **1.2 Registration**

Registration of candidates at this level was conducted through the online facility for both school and private candidates. All Centres managed to register at their respective schools this year, while some of the private candidates had to come to BEC for assistance.

#### **1.2.1 Registration of centres**

There were 79 Centres that registered candidates for the 2021 BGCSE examination, compared to 80 in 2020. These were categorised as follows; 53 school Centres (34 government schools and 19 private schools) and 26 private Centres (21 BOU and 5 BEC Centres). There were two new Centres registered for the 2021 series with only one of the two registering candidates for the 2021 series.

#### **1.2.2 Registration of candidates**

Table 1.1 below shows the number of candidates who registered for the BGCSE examination in 2021 by centre type. The total number of candidates increased by around 3% from 36,557 in 2020 to 37,629 in 2021. Government candidature increased by about 3%, private school candidates decreased by about 2.3% while there was an increase of about 3.6% in BOU candidature.

**Table 1.1: BGCSE Candidature by type of centre between 2017 and 2021**

	Government Candidates	School Private Candidates	School BEC Candidates	Centre BOU centres	Total number
2021	22,811	1,621	2,899	10,298	37,629
2020	22,141	1,660	2,815	9,941	36,557
2019	21,130	2,722	3,976	8,680	36,508
2018	23,126	1,670	5,494	5,655	35,945
2017	25,802	1,794	5,473	4,182	37,251

### **1.3 Administration of Examinations**

The 2021 examinations were conducted successfully despite challenges brought about by the COVID-19 environment. The examination guidelines provided by BEC assisted centres to be better prepared to handle situations that arose. Chief Invigilators were trained online to ensure that the examinations were administered in line with set standards. The upsurge of COVID-19 cases in July 2021, which led to the closure of schools from 16 July to 31 August 2021 impacted the teaching and learning programmes and as a result impacted the schedules for the moderation and written examinations. BEC had to shift the examination schedules by at most three weeks to cater for the teaching time lost during the year. This meant the examinations that were scheduled to start on 04 October and end on 17 November 2021 ended up starting on 18 October and ending on 24 November 2021. However, all stakeholders worked together to realise the delivery of examination services.

On 23 October 2021, eight (8) candidates missed their Science Double Award Paper 3 components due to the public transport strike in the Gaborone area. These candidates were granted special consideration.

### **1.4 Compliance to Examinations Regulations**

#### **1.4.1 BEC Inspections**

Inspections were conducted before and during the examinations to ensure compliance to the regulations. It was noted during the inspections that there were some security concerns at some centres in relation to secure storage. Some of the secure storage facilities at these Centres were not compliant to BEC Standards for Secure Storage of Examinations Material at Centres.

#### **1.4.2 Cambridge International Inspections**

The annual inspections conducted at BGCSE level are usually performed by independent inspectors engaged by Cambridge Assessment International Education (Cambridge International) to provide assurance on the BGCSE and Cambridge International examination standards. Due to travel

restrictions effected by countries in response to the COVID-19, the inspectors could not be engaged for the 2021 examinations series as was the case in 2020. So, for the second year running Cambridge International engaged the BEC Compliance and Quality Assurance Division to perform inspections of live examinations on their behalf.

A total of 19 examination Centres were inspected during the 2021 examination sitting. The inspections commenced on 06 October 2021 and were completed on 23 November 2021.

The results showed that out of the 19 Centres inspected, no Centre attained a rating of “Completely Satisfactory.” Six (6) or 32% of Centres attained a rating of “Satisfactory with Minor Points”, while 12 or 63% of Centres were awarded a “Cause for Concern” rating and one Centre or 5% awarded a “Serious Deficiency” rating. The overall compliance rating for the BEC for 2021 was 32% compared to 33 % in 2020. There continues to be poor performance by Centres despite the training provided each year and the provision of regulatory documents to help Centres run the examinations.

Despite the findings above, Cambridge International has indicated that Centres mostly complied with both BEC Guidelines for Conduct of Examinations and Cambridge International regulations where applicable. Most Centres that failed the compliance test had issues with secure storage of examination materials. However, in this series, it was noted that additional action was required by some Centres in order to fully comply with BEC Guidelines and/or Cambridge International Handbook. This was evidenced by thirteen (13) Centres visited receiving a rating of “Course for Concern” or “Serious Deficiency.”

## **1.5 Malpractice and Incidents**

### **1.5.1 Malpractice cases**

There were seven (7) cases of malpractice recorded in 2021 (as shown in Table 1.2 below), compared to five (5) cases in 2020.

Table 1.2: Summary of BGCSE Malpractice Cases

Incident type	No. of Centres	BEC Immediate Action	Action taken
<p><b>Opening of wrong question paper packet</b></p>	2	<p>In each case a team of investigators were immediately dispatched to the concerned centres. The team found out that proper procedures for collection of question papers from the secure storage, verification before opening and what to do in the case of opening the wrong question paper were not followed. However the investigation established that the examination was not compromised.</p>	<p>In one Centre, the Chief Invigilator was suspended for two years as there were issues with registration as well. In the other Centre, a warning letter was written to the Chief Invigilator. A report indicating what actions the Centre should take was written to the Centre. The Centre would be assisted to bring their secure storage to BEC standard and through the preparations for conduct of exams for the 2022 series.</p>
<p><b>Coursework copying</b> During central moderation, it was discovered that candidates from two Centres presented similar materials for DVS Project work.</p>	2	<p>It was verified that indeed candidates' scripts presented similar project work. So a team was dispatched to the Centre to investigate.</p>	<p>The investigation is continuing as some personnel that was critical to the investigation was not available at the time of investigation. The report will be submitted once the investigation is completed.</p>
<p>A candidate was caught with notes on a piece of paper during the Setswana Paper 1.</p>	1	<p>Investigations were instituted and have been completed. The report is still being finalised.</p>	<p>The report will be submitted once the investigation is completed.</p>
<p>Two Centres had candidates who presented similar work for Art and Design.</p>	2	<p>Investigations were instituted and have been completed. The report is still being finalised.</p>	<p>The report will be submitted once the investigation is completed.</p>

## 1.5.2 Incidents reported

Power outages, opening of wrong question paper packets and coursework copying seem to be the common malpractice across the years.

Table 1.3: Summary of BGCSE Incidents

Incident type	No. of Centres	BEC Immediate Action	Action taken
<b>Power outages during examinations</b>	2	Centres were requested to follow the prescribed procedure in the regulatory documents.	Centres observed the prescribed procedure and in the end all candidates accessed their examination when power was restored.
<b>Torn question paper packets</b> Centres reported that they had received question paper packets that were already torn	4	The Chief Invigilators were requested to secure the torn packets according to the prescribed procedure and investigating teams were dispatched to the concerned centres to investigate the causes of the tearing.	The tears that were discovered during packaging were reported and the samples of the torn packets returned to the printing company. The company has since admitted that there were issues with their packaging machinery that they have undertaken to resolve for the coming printing session.
<b>Unsealed question paper packets</b>	2	The Centres were requested to immediately seal the packets according to specified procedure and a team of investigators dispatched to the Centres	The investigation established that indeed the packets were not sealed from the printers but the question papers were deemed not to have leaked. The unsealed packets were replaced with stock packets and the unsealed packets sent to the printing company. The company has taken the responsibility for the errors and promised to correct their machinery used for heat sealing the packets.
<b>Unsealed SPED script return envelopes</b>	7	The Centre representatives were called to BEC to seal the scripts and provide a report of why the packets were not sealed. None of the Centres could provide any valid reasons for the incidents.	BEC will write warning letters to these Centres at the end of the series to avoid a repeat of the incidents.
<b>Refusal by D&amp;T teachers to submit the coursework marks to enable the moderation exercise</b>	1	The Centre was written a warning letter copied to the Regional Director indicating that if they did not submit the marks their candidates would not be graded.	The teachers later submitted the marks and moderation was conducted at the Centre's expense.

## 1.6 COVID-19 Cases

The handling of COVID-19 incidents in Centres improved a great deal despite the fact that during this time, unlike in 2020, government was not providing quarantine or isolation Centres for candidates with

COVID-19. The Centres worked tirelessly to ensure where possible candidates accessed their examinations despite being on quarantine or in isolation.

In 2021, the COVID-19 scourge impacted candidate examinations for the Food and Nutrition practical examination, which was ideally the first exam at BGCSE level, as well as a few written examinations. There were centres which had to re-schedule their practical examinations for some candidates due to COVID-19 quarantine and isolation cases. All in all, BEC worked closely with Centres to ensure all candidates accessed their examinations despite being in isolation or quarantine. In all, five (5) candidates were reported to have been impacted by COVID-19 in the 2021 series compared to eighty three (83) in the 2020 series. This was a significant drop that could be attributed to the improved observance of National COVID-19 protocols once candidates had resumed school. All cases except one were addressed. In the one case, the candidate could not be assisted as the whole family was in isolation and there was no one to work with the centre personnel.

## **1.7 Coursework and Moderation**

### **1.7.1 Coursework**

In 2021, the payment of teachers for coursework and invigilation was transferred from MOBE to BEC. This led to some unrest in Centres as they claimed that BEC would not deal with them the way MOBE dealt with them and the Unions influenced this unrest. As a result most Centres withheld coursework marks, with a few withholding both marks and projects, affecting the start of moderation which was scheduled from 18 October to 07 November 2021.

### **1.7.2 Moderation**

The delay in the submission of coursework projects and marks led to the postponement of central moderation which started a week later than scheduled. One Centre, BW825, held on and had to be written a warning letter before they could submit in the middle of the moderation exercise.

At yet another Centre, the teachers for Design and Technology refused to submit their marks to the Chief invigilator to enable the moderation of the subject. In the end the Centre bore the cost of moderating their marks after the scheduled moderation.

During moderation some Centres had to be called in to remark their projects as they had not marked up to the specified criteria. For the 2021 series, there was a marked improvement in the number of Centres called to remark Computer Studies, where only one (1) Centre compared to eight (8) in the previous years was called. Home Management also recorded one (1) centre in 2021 compared to four

(4) in 2020 series. However, a marked increase was observed for Fashion and Fabrics where twenty-one (21) centres had to remark compared to twelve (12) in 2020.

## **1.8 Marking**

The 2021 marking session was conducted from 09 - 24 December 2021. All the marking was conducted at two venues being Mogoditshane and Phillip Moshotle Primary School while two components were marked at the BEC premises. There was still observance of COVID-19 protocols as the same number of classrooms was maintained for each component as in 2020.

It is worth noting that this year, despite the shortages experienced by some, components all components completed their marking by 23 December 2021. This is exceptional performance from the examiners this year. The exception was, Setswana Paper 1, whose examiners had to be sent home a week before completion due to an outbreak of COVID19 in their marking room. This group came back from 05 - 12 January 2022 to complete the marking.

### **1.8.1 Recruitment of examining Personnel**

The 2021 marking session realized an improved number of examining personnel, despite shortages observed in all Setswana components, all the Mathematics components and Social Studies Paper 2 component. In those situations of acute shortages, some Team Leaders were engaged to mark as well as supervising examiners to ensure that marking was completed in time. In all, a total of 1,461 examining personnel were engaged in the 2021 marking exercise compared to 1,344 in 2020.

### **1.8.2 Challenges in the 2021 marking exercise**

The main challenge with the 2021 marking approach was noted as late appointment of examining personnel leading to some of the examiners being appointed at the start of marking. This also contributed to the shortages of examining personnel mentioned above for the few components.

### **1.8.3 Engagement of checkers**

For the 2021 marking series, almost all components, with the exception of Human and Social Biology component, engaged independent checkers as was the case in the 2020 series. This could be the reason for almost all components completing marking by 23 December 2021. Principal Examiners continued to report the positive impact brought by independent checkers. In all a total of 276 checkers were engaged in 2021 compared to 235 in 2020.

## **1.9 Candidates with Special Needs**

A number of applications were received from Centres for Access Arrangements and Special Consideration procedures. The two procedures are proving to be critical in increasing access to BEC

assessments for candidates with special needs. Candidates whose applications met the criteria for the two procedures were approved. As in previous years, there were candidates who did not benefit from the procedures due to unavailability of documents that support their applications.

### 1.9.1 Access Arrangements

A total of 590 applications were received for BGCSE in 2021 compared to 325 in 2020, showing an increase of 45%. Out of the 590 applications, 91% of the candidates provided supporting evidence while 9% did not. There was an increase in provision of supporting evidence when compared to 2020, where 86.7% provided the evidence required. The increase could be attributed to the fact that Centres that had applied on time were given an extension to submit the required supporting evidence from specialists. The applications that were not submitted with the necessary documents up to the extended period were not approved.

**Table 1.4: Status of Provision of Supporting Evidence**

Status	Number of Candidates				
	2017	2018	2019	2020	2021
<b>Provided</b>	103 (68.7%)	201 (89.3%)	280 (95.0%)	325 (86.7%)	537 (91.0%)
<b>Outstanding</b>	47 (31.3%)	24 (10.7%)	15 (5.0%)	50 (13.3%)	53 (9.0%)
<b>Total</b>	<b>150</b>	<b>225</b>	<b>295</b>	<b>375</b>	<b>590</b>

#### 1.9.1.1 Applications by Special Needs Types

Most of the special needs types recorded an increase as observed for Learning Difficulties, Visual Impairment and significantly so for candidates with Multiple Disabilities. It was noted that some BGCSE Centres still submitted applications that did not specify special needs types.

Table 1.5: BGCSE Applications by Special Needs Type

### 1.9.1.2 BGCSE Applications by type of Access Arrangements

All applications by type of access arrangements showed an increase except for rest breaks. This is shown on Table 6.

### 1.9.2 Special Consideration

A total of fifty-four (54) applications were received in 2021 compared to seventy-five (75) received in 2020. Out of fifty-four (54) applications received, Forty-six (46) applications provided supporting evidence while eight (8) did not.

Applications by special consideration type were received as shown in the table below.

Table 1.7: Applications by Special Consideration Type

SPECIAL TYPE	CONSIDERATION	NUMBER OF CANDIDATES WITH SUPPORTING EVIDENCE	NUMBER OF CANDIDATES WITHOUT SUPPORTING EVIDENCE	TOTAL
Ill health	COVID-19	2	0	2
	General ill health	27	8	35
Bereavement		8	0	8
Other		9	0	9
Total		46	8	54

### 1.10 Processing of the 2021 BGCSE Examinations

The scanning of the BGCSE data was conducted as per the revised schedule and was concluded on 12 January 2022. The scanning was mainly affected by the errors in the answer sheets due to non-personalisation of the forms and the constant breakdown of the obsolete OMR scanners.

Online data capturing of marks for senior examiners which was planned to be done at the two marking venues in December 2021 had to be extended to January 2022. This was mainly due to interruptions in internet connectivity, shortage of equipment and shortage of data capturers.

Most of the centres at this level cooperated and captured marks for coursework components within the extended scheduled time. However, there were a few centre that refused until such time that access had to be revoked for other examination processes to continue. Such centres, were informed to come to the BEC to capture the marks when ready to do so, which they did.

## PART II: TECHNICAL REPORT

### 2.0 Introduction

The assessment structure for 2021 BGCSE was the same as that of 2020 comprising, twenty seven (27) BGCSE syllabuses and three (3) syllabuses borrowed from Cambridge International. The 27 BGCSE syllabuses had a total of seventy two (72) components: eight (8) Multiple-Choice, nine (9) coursework and fifty five (55) constructed response.

The BGCSE is a subject based qualification and therefore grades are awarded at subject level and there is no aggregation in classifying individual candidate performance. However, for purposes of understanding the national performance levels, candidates' performance is aggregated into an overall level using the best 6 syllabuses they may have sat. The grades awarded in each syllabus are on a scale of A\* to G, where A\* represents the highest level of performance and G the lowest. Candidates failing to reach the minimum requirements for grade G are assigned letter U. Whilst grades G or better represent the level of achievement in a given syllabus, those that are C or better are classified as credits and the band C or better is used as a measure of quality.

This report uses data from candidates on full time attendance at government schools only and therefore the syllabus/components which are exclusively available to private candidates will be excluded from the comparisons that follow. The components to be excluded are those of Human & Social Biology and the alternatives to the practical test for the separate sciences.

The 2021 examination series provided candidates with an opportunity to show what they know and what they can do and to the same level of demand as those who took the examination in previous years. However, the 2021 cohort had to show what they know and what they can do under an exceptionally different environment which was similar to that of their immediate predecessors due to the COVID-19 pandemic. Although the environment was similar, the magnitude of the impact experienced by the 2021 cohort extended over a period of two years compared to that of the previous cohort which was impacted for a year only. The impact of the pandemic meant that candidates taking examinations in 2021 are **likely** to demonstrate a lower level of knowledge, skills and understanding at an overall national level, than those of previous years, through no fault of their own. Therefore, in syllabuses where this was evident, an established post examination procedure that compensates candidates who were disadvantaged at the time of the examination due to circumstances beyond their control was applied at a national level as impact at candidate level could not easily be quantified.

## 2.1 Quality of the Assessment Instruments

The BGCSE question papers were developed by BEC and externally quality assured by Cambridge International to ensure their suitability for the intended purpose. This section reports on the statistical parameters of the question papers following their live examination administration. The parameters reported for the Multiple-Choice components are Mean P (general difficulty level of the question paper), Standard Deviation [SD] (amount of score variability) and Alpha (level of reliability) whilst for the rest of the components it is the mean mark and standard deviation.

It should be noted however that, the ability of the cohort may contribute to the magnitude of the values obtained during administration. The tests are designed for heterogeneous groups which are assumed to be normally distributed in terms of ability. The group to which the tests are administered may be of a homogeneously low or high ability thus making the statistical parameters to be slightly different to what may have been expected. This does not in any way mean that the test itself was unsuitable.

Table 2.1 shows the statistical parameters in 2021 and the corresponding values from 2020 for the seven Multiple-Choice components available to government Centre candidates. Tables 2.2 and 2.3 show the 2021 and 2020 parameters for the coursework components and the constructed response components respectively.

*Table 2.1 Statistical Properties of Multiple-Choice Components in 2021 and 2020*

Syllabus Name	2021			2020		
	Mean P	SD (%)	Alpha	Mean P	SD (%)	Alpha
Chemistry	0.63	14.6	0.79	0.71	15.2	0.83
Physics	0.51	13.3	0.74	0.54	14.8	0.79
Biology	0.80	11.1	0.74	0.79	11.5	0.76
Science S Award	0.39	9.3	0.46	0.39	9.6	0.43
Science D Award	0.44	13.4	0.83	0.44	14.5	0.84
Commerce	0.54	12.4	0.71	0.56	13.6	0.75
Agriculture	0.61	13.2	0.74	0.53	13.4	0.72

### General Difficulty level (mean P)

Most of the question papers were of moderate difficulty as indicated by mean P values ranging from 0.4 to 0.6, which is the desired level of difficulty. However, Biology continued to be easier with a mean P

value of 0.80 which is almost the same as that of the previous year. Investigations on the reason(s) for easiness of this component commenced two years ago and have not yet been concluded.

### Score variability (SD)

All components in exception of Science Single Award and Biology recorded values between 12% and 15% which are below the desired amount of about 16% but still generally reasonable for use in decision making just like those of the previous year. It ought to be noted that as stated earlier in this section and in previous reports, the low value of the standard deviation in Science Single Award might be a result of the ability profile of the candidates enrolled in the syllabus.

### Level of Reliability (alpha)

All question papers in exception of Science Single Award recorded levels of reliability which are around the acceptable level of 0.8 just like in the previous year.

*Table 2.2 Percentages of Mean Marks and Standard Deviations for Coursework Components in 2021 and 2020*

Syllabus Name	Raw Score	2021		2020	
		Mean Mark (%)	SD (%)	Mean Mark (%)	SD (%)
Development Studies	50	68.70	11.74	68.88	11.78
Design & Technology	100	72.75	14.42	67.69	13.51
Art & Design	100	68.49	12.66	67.81	12.08
Computer Studies	70	61.16	10.28	58.66	13.90
Agriculture	155	78.63	15.88	82.96	8.91
Fashion & Fabrics	100	67.47	9.82	64.13	7.30
Home Management	80	73.25	8.00	73.51	7.86
Physical Education	180	60.51	9.25	58.74	9.46

The parameters in Table 2.2 show that, the coursework components continue to record very high mean values and relatively small standard deviations. The coursework components with standard deviations lower than 12% are still a concern. The inadequate differentiation from any component, as evidenced by smaller standard deviations, makes the contribution of the component towards the overall assessment insignificant compared to the weightings published in the syllabuses. Teacher training and engagement with relevant key stakeholders will be continued to ensure that the coursework is conducted in an appropriate manner.

From Table 2.3 it can be noted that most of the constructed response components recorded mean values between 40% and 60%, and standard deviations of at least 10%. The least performing component was Agriculture with a mean of 27.05. Some of the components in Setswana, English Language, Biology and Food & Nutrition recorded standard deviations of less than 10% indicating low differentiation. The greatest concern is for Setswana with a standard deviation of about 5%. Efforts are being made to improve the significance of the components, starting with the languages. Computer Studies has a large standard deviation which may signify problems of score reliability. The unusual behaviour of the components will continue to be monitored.

In general the technical quality of the assessment instruments used in 2021 was almost at the same level as that of 2020 but work continues towards improving the quality of those where there is room to do so.

## 2.2 Grading

### 2.2.1 Process

The Principal Examiners provided professional judgement about the quality of the candidature and the difficulty of the question papers at the end of marking.

The period of 17 – 28 January 2022 was dedicated to both the pre-grading and grading meetings. The Product Development Officers conducted the pre-grading on the week of 17 – 21 January 2022. The grading meetings were held on the week of 24 – 28 January 2022 where prospective results were discussed by both the Product Development Officers and members of the Grading Advisory Committee.

### 2.2.2 Membership of the GAC

This year the GAC had stakeholder representatives from the Department of Curriculum Development & Evaluation (CD&E), Botswana Open University (BOU) and the University of Botswana. There was also a representative from Cambridge International as required by the accreditation agreement. The rest of the members were BEC management staff from the Directorates of Product Development & Standards (PDS), Examinations Administration & Certification (EAC) and Research & Policy Development (RPD). The Committee considered and approved grade thresholds and awarding decisions for all the 27 BGCSE syllabuses.

## 2.3 Validation of Prospective Results

The process of result validation involved grade review and the checking of prospective results for Centres.

### 2.3.1 Grade review

The process of grade review involves identification and marking of the scripts of candidates who are on the borderline of achieving the next grade and therefore at risk of being awarded an incorrect grade. The grade review was conducted on the 31 January – 02 February 2022.

The criteria used for referring candidates for review were;

- Candidates with marks which are below the syllabus grade thresholds for A, B, C, D, E, F or G by a number of marks equal to or less than 1% of the total mark for the syllabus **PLUS** two component grades which differ by 3 or more.

- Candidates with marks which are below the syllabus grade thresholds for A, B, C, D, E , F or G by a number of marks equal to or less than 1% of the total mark for the syllabus **PLUS** two or more grades below the grade forecast by the Centre for those candidates who had forecast grades.

The highest number of scripts that were reviewed per component was 612 in Science Double Award 3. Another syllabus with the largest number of candidates reviewed was Social Studies 1 with 561. Some components namely Mathematics 3, Literature in English, Chemistry 3 and 4, Human and Social Biology 2 and Music reviewed 10 or less candidates.

## 2.4 Final Outcome

This section reports on outcomes at syllabus and overall levels for government centre candidates only.

### 2.4.1 Performance at syllabus level

Performance at syllabus level remains at the same level as that of the previous year except in 8 syllabuses whereby 3 of them experienced significant decline and 4 experienced significant improvements at one of the key grades. The last syllabus experienced a significant decline at one of the key grades and a significant improvement at the other key grade. The sources for the changes observed in the 8 syllabuses will be communicated in a separate report to Centres and stakeholders.

### 2.4.2 Syllabus specific reports

The syllabus specific reports are presented according to the classification in the curriculum blueprint. The blueprint classifies syllabuses into two broad groups of Core and Optional. The optional group is further divided into 4 subgroups as follows:

- Sciences
- Humanities and Social Sciences
- Creative, Technical & Vocational
- Enrichment

#### 2.4.2.1 Core Syllabuses (Setswana, English Language, Mathematics)

Table 2.4 shows performance in the Core syllabuses at Grade G or better, E or better and C or better for 2021 and 2020.

Table 2.4. Performance in Core syllabuses

SYLLABUS	GRADE G OR BETTER			GRADE E OR BETTER			GRADE C OR BETTER		
	2021	2020	Diff	2021	2020	Diff	2021	2020	Diff
English Lang	99.95	99.96	-0.01	95.71	96.48	-0.77	19.58	19.27	0.31
Setswana	99.61	99.75	-0.14	93.81	93.72	0.09	34.94	35.07	-0.13
Mathematics	94.58	92.22	2.36	60.05	59.57	0.48	34.35	34.21	0.14

Key

	Significant improvement (more than 2 %)
	Significant decline (more than 2 %)

\*Note that the key applies to Tables 2.4 -2.8.

Nearly all candidates reached the minimum requirement for grade G in the languages whilst in Mathematics about 5% of candidates failed to reach this level and will be assigned letter U. It ought to be noted that this is an improvement from the previous year in which those assigned letter U constituted about 8%. The Mathematics syllabus further continues to be the least performing of the three at grades E or better. Whilst the languages maintain a very high level of performance at grade E or better, the performance at credit level (C or better) in English Language is a cause for concern given that most institutions of higher learning require a credit in English language as part of the entry requirements.

#### 2.4.2.2 Science Syllabuses (separate Sciences and the Award Sciences)

The entries in the separate sciences remained more or less the same as those of the previous year whilst the award sciences experienced slight increases and Science Double Award remained the most popular option. Table 2.2 shows performance in the Science syllabuses at Grade G or better, E or better and C or better for 2020 and 2019.

Table 2.2. Performance in Science Syllabuses

##### 2.4.2.2.1 The Award Sciences

Most of the candidates qualified for the award of a syllabus grade but about 6% will be assigned letter U in Science Single Award even though this is an improvement from the previous year. Performance in these syllabuses continue to be generally low at grades E or better and C or better. The total credit

SYLLABUS	GRADE G OR BETTER			GRADE E OR BETTER			GRADE C OR BETTER		
	2021	2020	Diff	2021	2020	Diff	2021	2020	Diff

Biology	99.89	99.95	-0.06	98.14	97.39	0.75	74.12	73.81	0.31

grades obtained from the Award Sciences continues to be low despite Science Double Award being the most popular option.

#### 2.4.2.2.2 The separate Sciences

Almost all candidates achieved grade E or better in the three separate sciences. Chemistry continues to be the best performing with over 90% of candidates achieving credit grades.

#### 2.4.2.3 Humanities and Social Sciences (History, Geography, Social Studies, Development Studies, Literature in English)

Table 2.3 shows the performance of candidates in the Humanities and Social Science syllabuses at Grade G or better, E or better and C or better for 2021 and 2020.

**Table 2.3. Performance in Humanities and Social Sciences**

SYLLABUS	GRADE G OR BETTER			GRADE E OR BETTER			GRADE C OR BETTER

Literature in Eng	97.44	98.51	-1.07	87.72	89.01	-1.29	66.92	66.20	0.72

All syllabuses in the subgroup recorded less than 10% of candidates assigned letter U. Geography continues to be the lowest performing at grade C or better. The performance observed in Literature in English should be interpreted cautiously as the syllabus attracts very few entries compared to others in the subgroup.

#### 2.4.2.4 Creative, Technical & Vocational (Business syllabuses, Home Economics syllabuses, Agriculture, Design & Technology, Art & Design Computer Studies)

The overall performance of syllabuses in this subgroup, with the exception of Business Studies, Accounting and Fashion & Fabrics, is at the same level as that of the previous year. Art & Design syllabus continues to record exceptionally high levels of performance across key grades with over 70% of candidates achieving grade C or better. Generally, candidates perform well in most of the subjects in this subgroup of syllabuses compared to others. Table 2.4 shows the performance for syllabuses in the subgroup at Grade G or better, E or better and C or better for 2020 and 2019.

Home Manage	99.17	99.69	-0.52	90.59	91.64	-1.05	47.30	48.34	-1.04

#### 2.4.2.4.1 The Business Syllabuses (Commerce, Business Studies, Accounting)

Two of the syllabuses (Accounting and Business Studies) have recorded significant decline at Grade G or better implying that larger proportions will be assigned letter U this year. It needs to be noted that Business Studies is the worst performing of all the 27 syllabuses.

#### 2.4.2.4.2 The Home Economics Syllabuses (Food & Nutrition, Fashion & Fabrics and Home Management)

Performance on the three syllabuses is at the same level as that of the previous year with Home Management continuing to be the best performing across key grades.

#### 2.4.2.5 Enrichment syllabuses (Physical Education, Religious Education, Music)

Table 2.5 shows performance for syllabuses in the Enrichment subgroup at E or better and C or better for 2021 and 2020. Nearly all candidates who entered for syllabuses in this subgroup were graded. That is very few, of the candidates who sat for Religious Education were assigned letter U.

Table 2.5. Performance in Enrichment syllabuses

SYLLABUS	GRADE G OR BETTER			GRADE E OR BETTER			GRADE C OR BETTER		
	2021	2020	Diff	2021	2020	Diff	2021	2020	Diff

Music	100.00	100.00	0.00	94.71	94.67	0.04	56.25	64.00	-7.75

#### 2.4.2.5.1 Music

The size of the cohort for this syllabus is too small (less than 200 candidates) and its composition fluctuates across years. Therefore, performance trends in the syllabus should be interpreted with caution.

#### 2.4.2.5.2 Religious Education

A significant improvement has been recorded at Grade E or better. However, it ought to be noted that the syllabus continues to record the lowest level of performance in the subgroup as indicated by the proportion of candidates achieving grade E or better (even though it has improved at this level) and grade C or better.

Table 3.1 presents the number of candidates who registered for BGCSE examinations in each centre across 2 years, 2019 and 2020. A comparison with 2020 candidature shows that five government

centres have increased by more than 10% in candidature. However, it should be noted that there were significant declines and increase in some private centres.

### 3.3 Number of candidates graded for each syllabus

Table 3.2 shows the total number of candidates (school candidates and private candidates) who were graded for each of the syllabi in the period from 2017 to 2021. It also shows the percentage change in candidature compared to the previous year. Candidates who failed to meet the minimum requirements for a syllabus are also included and denoted by X.

Table 3.3 shows the total number of grades awarded at each key grade which are grade G, grade E, grade C and grade A or better. The results indicate that of all the grades awarded, 96.78% were grades G or better, 74.89% were grades E or better and 30.32% were grades C or better, while those which were grade A or better (A and A\*) constituted only 2.85% in 2021, compared to 96.04%, 74.74%, 30.20% and 2.80%, respectively, for similar grades in 2020. This shows some minor improvements at all these key grades.

Table 3.5 shows the number of grades issued which were grade A or better compared with the previous years. All candidates and all syllabi are included. There is a very slight increase of 0.05% at grade A or better from the previous year. In fact, there had been some fluctuations over the years, with some slight increase observed between 2018 and 2021.

### 3.4.2 Proportion of Candidates Awarded key grades

Table 3.6A presents candidates who were awarded at least grades A or better, C or better, E or better and G or better in 6 subjects they obtained best grades in 2021 compared to previous years. The results indicate that **0.32%** of the candidates obtained 6 A grades or better in 2021 compared to 2020 which is insignificant. In grade category 6 C's or better, there were **12.91%** in 2021 compared to 12.83% in 2020, which signify 0.08% insignificant increase. Candidates who were awarded 6 E grades or better declined slightly from 40.16% in 2020 to **39.48%** in 2021, signifying an insignificant decline of 0.68%. For grade category 6 G's or better, there was a slight improvement from 60.55% in 2020 to **61.27%** in 2021,

signifying a 0.72% increase. Generally the 2020 and 2021 cohorts performed at the same level.

## Appendix 1

### PERFORMANCE OF CANDIDATES IN GOVERNMENT AND GOVERNMENT AIDED SCHOOLS

Tables AP1.1 to AP1.34 show the performance of candidates in the Government and Government Aided Schools in the period from 2016 to 2021. Only candidates in full-time attendance at the schools have been included. The performance of the candidates in each school is measured by calculating the number of grades awarded and the cumulative percentage at each grade. Changes in the performance of candidates in a particular school could be assessed by comparing the percentage of the grades issued which are grade C or better (the cumulative percentage at C). For example, in Table AP1.1 the proportion of all grades issued which are C or better decreased from 23.33% in 2016 to 19.66% in 2017, then increased to 21.11% in 2018 and remained the same at 21.11% in 2019.
